-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address--

All claims being allowable, PROSECUTION ON THE MERITS IS (OR REMAINS) CLOSED in this application. If not included herewith (or previously mailed), a Notice of Allowance (PTOL-85) or other appropriate communication will be mailed in due course. **THIS NOTICE OF ALLOWABILITY IS NOT A GRANT OF PATENT RIGHTS.** This application is subject to withdrawal from issue at the initiative of the Office or upon petition by the applicant. See 37 CFR 1.313 and MPEP 1308.

1. ☒ This communication is responsive to 11/21/05.
2. ☒ The allowed claim(s) is/are 1,4-8,11-15,18-22,25-29 and 31-33.
3. ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
 - a) ☐ All b) ☐ Some* c) ☐ None of the:
 1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this national stage application from the International Bureau (PCT Rule 17.2(a)).

* Certified copies not received: _____.

Applicant has THREE MONTHS FROM THE "MAILING DATE" of this communication to file a reply complying with the requirements noted below. Failure to timely comply will result in ABANDONMENT of this application.

THIS THREE-MONTH PERIOD IS NOT EXTENDABLE.

4. ☐ A SUBSTITUTE OATH OR DECLARATION must be submitted. Note the attached EXAMINER'S AMENDMENT or NOTICE OF INFORMAL PATENT APPLICATION (PTO-152) which gives reason(s) why the oath or declaration is deficient.
 5. ☐ CORRECTED DRAWINGS (as "replacement sheets") must be submitted.
 - (a) ☐ including changes required by the Notice of Draftsperson's Patent Drawing Review (PTO-948) attached
 - 1) ☐ hereto or 2) ☐ to Paper No./Mail Date _____.
 - (b) ☐ including changes required by the attached Examiner's Amendment / Comment or in the Office action of Paper No./Mail Date _____.
- Identifying indicia such as the application number (see 37 CFR 1.84(c)) should be written on the drawings in the front (not the back) of each sheet. Replacement sheet(s) should be labeled as such in the header according to 37 CFR 1.121(d).**
6. ☐ DEPOSIT OF and/or INFORMATION about the deposit of BIOLOGICAL MATERIAL must be submitted. Note the attached Examiner's comment regarding REQUIREMENT FOR THE DEPOSIT OF BIOLOGICAL MATERIAL.

EXAMINER'S AMENDMENT

The IDS filed 03/24/06 has not been considered by the Examiner because the certification statement is out-dated and is no longer valid.

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Mr. James Gatto on 01/06/06.

The application has been amended as follows:

Cancel claims 3, 10, 17 and 24.

Claim 1:

A system for enabling a user to create a frameset arrangement for a view comprising:

a frameset arrangement presentation object that simultaneously displays a plurality of predefined frameset arrangements to the user through a graphical user interface, wherein the plurality of predefined frameset arrangements are displayed as objects to the user;

a frame number specification object that enables the user to specify at least a first number of frames or a second number of frames in the plurality of predefined frameset arrangements ~~that are simultaneously displayed, the first~~ number of frames being different than the second number of frames;

a frameset selection object that enables the user to select one of the plurality of predefined frameset arrangements through the graphical user interface; and
a view presentation object that presents the view to the user having the predefined frameset arrangement selected;

wherein in response to the user specifying the first number of frames, the frameset arrangement presentation object presents the plurality of predefined frameset arrangements, each having the first number of frames specified by the user, and

wherein in response to the user specifying the second number of frames, the frameset arrangement presentation object presents the plurality of predefined frameset arrangements, each having the second number of frames specified by the user.

Claim 8:

A system for enabling a user to create a frameset arrangement for a view comprising:

means for simultaneously displaying a plurality of predefined frameset arrangements to the user through a graphical user interface, wherein the plurality of predefined frameset arrangements are displayed as objects to the user;

means for enabling the user to specify at least a first number of frames or a second number of frames in the plurality of predefined frameset

arrangements that are simultaneously displayed, the first number of frames being different than the second number of frames;

means for enabling the user to select one of the plurality of predefined frameset arrangements through the graphical user interface; and
means for presenting the view to the user having the selected predefined frameset arrangement;

wherein in response to the user specifying the first number of frames, the means for simultaneously displaying the plurality of predefined frameset arrangements presents each of the plurality of predefined frameset arrangements with the first number of frames specified by the user, and

wherein in response to the user specifying the second number of frames, the means for simultaneously displaying the plurality of predefined frameset arrangements presents each of the plurality of predefined frameset arrangements with the second number of frames specified by the user.

Claim 15:

A method for enabling a user to create a frameset arrangement for a view comprising the steps of:
simultaneously displaying a plurality of frameset arrangements to the user through a graphical user interface, wherein the plurality of predefined frameset arrangements are displayed as objects to the user;

Art Unit: 2179

enabling the user to specify at least a first number of frames or a second number of frames in the plurality of predefined frameset arrangements ~~that are simultaneously displayed~~, the first number of frames being different than the second number of frames;

enabling the user to select one of the plurality of predefined frameset arrangements through the graphical user interface; and

presenting the view to the user having the selected predefined frameset arrangement;

wherein if the user specifies the first number of frames, the plurality of predefined frameset arrangements are each displayed with the first number of frames specified by the user, and

wherein if the user specifies the second number of frames, the plurality of predefined frameset arrangements are each displayed with the second number of frames specified by the user.

Claim 22:

A processor readable medium having processor readable code embodied therein for causing a processor to enable a user to create a frameset arrangement for a view, the medium comprising:

processor readable code for causing the processor to simultaneously display a plurality of predefined frameset arrangements to the user through a

Art Unit: 2179

graphical user interface, wherein the plurality of predefined frameset arrangements are displayed as objects to the user;

processor readable code for causing the processor to enable the user to specify at least a first number of frames or a second number of frames in the plurality of predefined frameset arrangements ~~that are simultaneously displayed,~~ the first number of frames being different than the second number of frames;

processor readable code for causing the processor to enable the user to select one of the plurality of predefined frameset arrangements through the graphical user interface; and

processor readable code for causing the processor to present the view to the user having the selected predefined frameset arrangement;

wherein in response to the user specifying the first number of frames the processor readable code further causes the processor to present each of the plurality of predefined frameset arrangements with the first number of frames specified by the user, and

wherein in response to the user specifying the second number of frames the processor readable code further causes the processor to present each of the plurality of predefined frameset arrangements with the second number of frames specified by the user.

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Mylinh Tran. The examiner can normally be reached on Mon - Thu from 7:00AM to 3:00PM at 571-272-4141.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Weilun Lo, can be reached at 571-272-4847.

The fax phone numbers for the organization where this application or proceeding is assigned are as follows:

571-273-8300

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only.
